

Sequence diagram : 'terraform apply' with sewan provider plugin and sdk

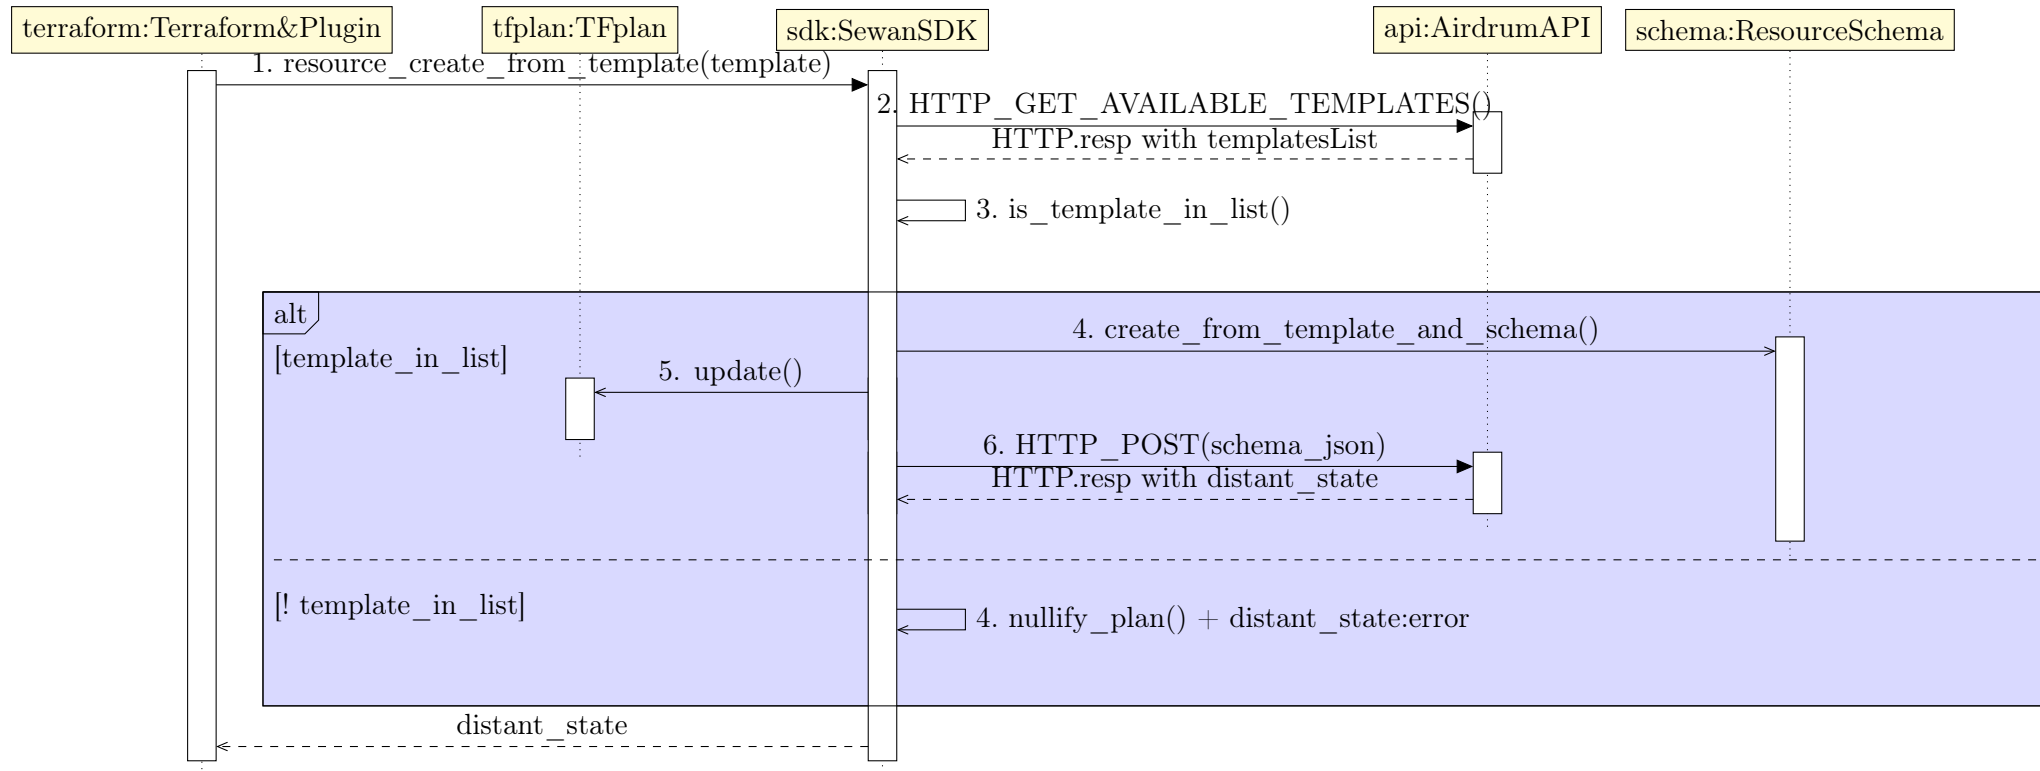

Sewan

July 11, 2018

1 Infrastructure plan application

2 VM resource creation from template

NB about step 5 ("update() tfplan") Version 11.7 of terraform doesn't support CRUD operation on config plan file. As cloudcc templates provide most of a vm resource parameters, these templates provided parameters should be added to the config file to prevent them from being removed in post-creation vm updates as they are not provided in the config plan file.

3 VM resource update from template
